Pancho Villa

Pancho Villa's Coins and Bills

By Miguel L. Muñoz, ANA-51678

AT THIS MOMENT somewhere in the streets of Mexico, the "mariachis" are playing "corridos," (ballads), telling of the exploits and glories of Pancho Villa.

What the "mariachis" in the street do not sing is the fact that Pancho Villa was directly or indirectly responsible for a good share of the Mexican revolutionary coins and bills.

Villa also contributed to the opinion that the world has of Mexico as a land of revolutions and Coups-d'Etat. We must point out, however, that Mexico has not had a serious revolt for half a century and has enjoyed 50 years of peace, progress and prosperity. Further, Mexico has not had a military president since 1946.

On the other hand, Mexico did have a revolution, or rather, a series of revolts from 1910 to 1920. During these 10 years, hundreds of leaders sprang up and scores of them came to be what we call, "generales de dedo" (finger generals), so called because they were made "generals" by pointing them out with the finger.

Without question, the roughest, most colorful and unruly of the lot was Francisco Villa, better known all over the world as Pancho Villa. Many books have been written about him. Streets, avenues, public parks, theaters, etc. have been named after him. Statues have been erected in various towns and cities. Hollywood and Mexico have made several films about his exploits.

As far as numismatists are concerned, Pancho Villa left hundreds of coins and bills; however, we shall limit ourselves to only a few outstanding ones which

we consider unique in the world.

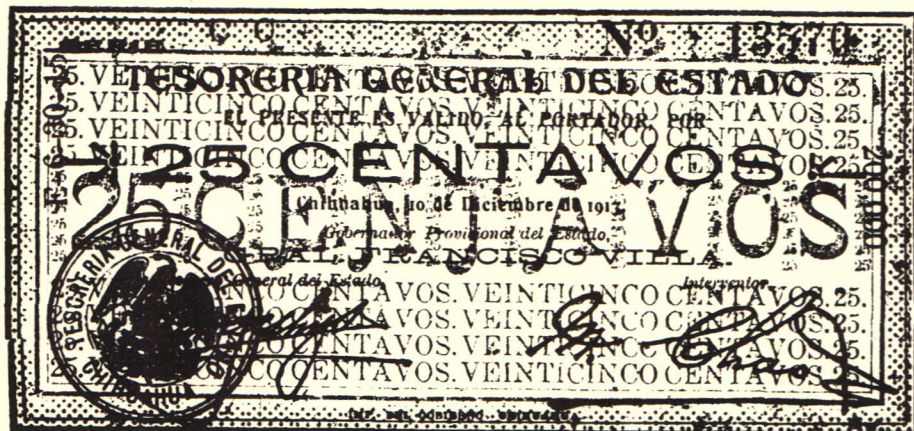

For the proper setting for Villa's contribution to numismatics, we ought to give you his thumbnail biography and a few highlights of the Mexican Revolution in which Villa played a very important role.

He was born in San Juan del Rio, Dgo. June 5, 1878. His real name was Doroteo Arango. He was still a teenager when his father died and he had to work as "peón" in the fields from sunup to sundown to support his mother and younger sisters and brothers. One day he saw his "patrón," (boss) attacking his sister. He borrowed a gun, shot his "patrón" and ran to the mountains for protection. There he met bandits and outlaws who took him in and taught him the tricks of the trade. It was then that he decided to change his name from Doroteo Arnago to Pancho Villa.

From 1880 to 1910 Mexico had 30 years of peace under the strong hand of President Gral. Porfirio Díaz. Gral. Díaz had been elected President 10 times and he was reaching his 80's. Presidential elections were coming. The population was restless. Younger Francisco I. Madero revolted in 1910 against President Díaz and invited Pascual Orozco and Pancho Villa to join him.

Pancho Villa, in the dark moustache, is pictured here as many people think of him—a bullet draped bandit. However, he progressed from bandit to rebel to general in the Constitutional Mexican Army to governor of the state of Chihuahua.

Gral. Francisco Villa's name appears on his "bedsheets," named for the large size of the higher denomination bills of the series.

Thus Pancho Villa the outlaw became Pancho Villa the rebel.

Madero became president and soon Pascual Orozco revolted against him. President Madero sent Gral. Victoriano Huerta to command the "División del Norte" (northern division) and requested Pancho Villa to join it as "honorary colonel." Gral. Huerta, an army man all his life, did not like to have honorary colonels in his troops and put Villa under the direct orders of Colonel Guillermo Rubio Navarrete, one of the best artillery men of the Mexican Army at the time.

Rubio Navarrete and Villa got along beautifully. Rubio Navarrete taught Villa the secrets of artillery and strategy. Thus Pancho Villa the rebel became a colonel of the Federal Mexican Army. But Pancho Villa was such a rebellious and rugged individual that on one occasion Gral. Huerta nearly had him shot. The charge: Insubordination. Several of Villa's friends contacted Madero who intervened and Pancho Villa was instead sent to the military prison of Tlalatelolco in Mexico City. While in prison he learned to read and write.

Villa succeeded in escaping from prison and, playing hide-and-seek, reached the United States. He settled near El Paso, Texas, waiting for a chance to return to Mexico.

When Madero was overthrown by

Huerta and shot on February 22, 1913, Villa crossed the Mexican border at "Los Partidos" on March 8 with only eight followers. But his fame had preceded him and soon his army increased to hundreds and later to thousands. Thus Pancho Villa the insubordinate soldier became a rebel again. This time in his own right.

Venustiano Carranza who had also revolted against Gral. Huerta and had named himself "Primer Jefe del Ejército Constitucionalista" (First Chief of the Constitutional Army) invited Pancho Villa to join forces on the grounds that they both had a common enemy: Gral. Huerta. Pancho Villa accepted Carranza's invitation. Thus Pancho Villa the rebel became Pancho Villa a general of the Constitutional Mexican Army.

After several skirmishes, Villa's army was ready to attack Torreón, Coah, a rich city in the biggest cotton producing section at that time. The fight against regular soldiers of the Federal Army was tough. The Federals were well equipped with plenty of ammunition and heavy artillery. But in spite of the odds against him, Pancho Villa won his first big battle and entered Torreón on October 1. It was less than eight months after he had crossed the Mexican border with a handful of men. The need of money to pay his troops became urgent.

There were five banks in Torreón at

that time — Banco de Coahuila, Banco de la Laguna, Banco Germano Sud Americano, Banco Nacional de México, and Banco de Londres y México. There was also the Banco Minero in the nearby city of Gómez Palacio, Dgo.

Villa requested a "préstamo forzoso," compulsory loan, of \$300,000 pesos from the local banks. The banks had no money since their vaults had been depleted by their own depositors before Villa's arrival. Pancho Villa would never take "NO" for an answer and by his so doing we have his first contribution to numismatics. The bankers called for a hurried meeting since their lives were at stake. One of the bankers named Zunzunegui, proposed that each bank draw checks against the others. These were in effect mutual promissory notes or mutual I.O.U.'s which could circulate instead of paper money. The public

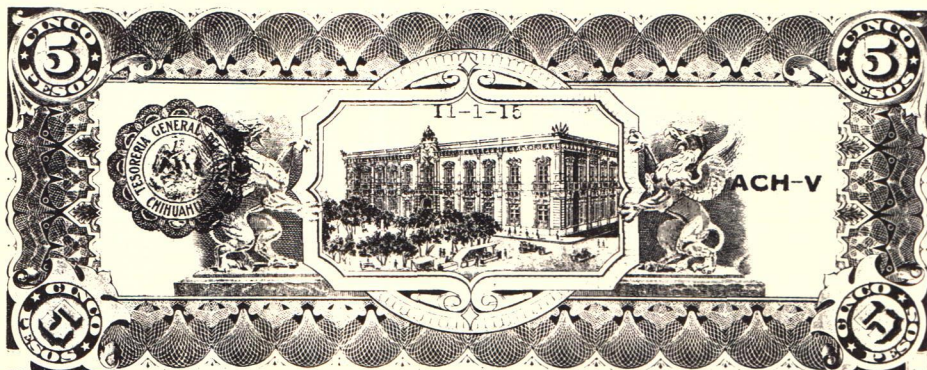

accepted them and this solution worked out very well and the bankers saved their necks.

These notes or I.O.U.'s are in typeset and were printed in denominations of \$1 - 2 - 5 - 10 - and 20 - Pesos. The \$ 1 - and 2 - peso notes are approximately 45 X 90 millimeters, all others are 90 X 180 millimeters. All the checks have the same reverse. Only three banks seem to have issued \$ 1 and 2 peso notes and it also seems that only one bank issued \$ 50 peso notes. Some 53 different checks or I.O.U.'s are known.

There are, of course, many varieties in the paper used, color of the inks, signatures, and other details. We do not pretend to say that these checks or notes are Pancho Villa's; though there is no question that Villa was responsible for their issue. These checks or mutual promissory notes used as paper money, as

Heavy counterfeiting of the first series necessitated the issuing of the Dos Caritas series, named for the two portraits on the bills.

far as is known, are unique in the world.

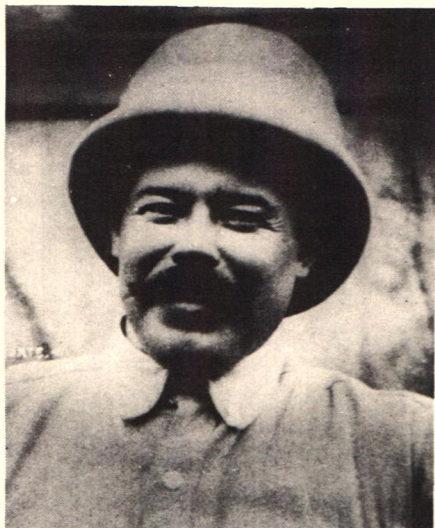

It has been accepted that the first coins minted by Villa were struck at Hildalgo del Parral, Chih. These are the peso and 50 centavo silver pieces and the two centavo copper coin. There is another Parral peso known as "Peso de Bolita," (little ball peso). This coin has two main varieties. The first has the digit 1 above the ball and the other the digit 1 seems to be under the little ball. These latter coins are very rare. Why the "bolita" was put in the coin? No reason or explanation is known.

Pancho Villa's revenge for Huerta's attempt to have him shot was indeed very numismatic. Beyond doubt Pancho Villa's biggest contribution to numismatics is the striking of coins with the anathema of curse, "Muera Huerta," (death to Huerta). We must remember that Gral. Huerta, how ever it might have been, was the president of Mexico at the time.

No other coins are known to carry such a death curse naming an individual; they are unique in the world. It has been accepted that they were struck at Cuencamé, Dgo., a mining town near Torreón.

There are many varieties of this coin. The most interesting one was caused by a die break, which can be found by careful examination in some of these coins. Another "Muera Huerta" coin is the variety with "six stars," three to each side of the legend "Un Peso." This coin is considered very rare. There is still another "Muera Huerta" coin, the \$ 20 gold coin. Although some people doubt the authenticity of this coin, it is very much sought after and is the rarest gold coin of the Mexican revolutionary pieces.

It has been said that the metal for the Parral two centavo copper coins came from the electric wires of the tramways that used to run from Parral to Tanta Bárbara and that the silver came from a mine near Parral. There is another version that the metal for the silver coins came from the 122 silver bars looted from a train bushwhacked by Villa near San Andres, Chih. Both of these ver-

sions could be true — Parral is a silver mining town and the train robbery at San Andrés, did produce 122 silver bars.

After Torreon Villa headed north to take over the city of Chihuahua. It was difficult. After five days of struggle, Villa simulated a siege to the city and continued north. He captured a south-bound train hauling a load of coal. Villa dumped the coal on the side, loaded his troops and equipment in the gondolas and ordered the engineer to reverse the train to Ciudad Juárez.

He unloaded his troops at night on the outskirts of Juárez and waited for dawn when he caught the federal troops still in bed. Early in the morning of November 15, the people of Ciudad Juárez woke up to the noises of Villa's troops marching and shouting "Viva Villa." The military bands, the orchestras from all the night clubs and every musician in town were ordered to play Pancho Villa's favorite marches and polkas all day long. It was "fiesta" for several days.

The news of this victory ran like burning powder. Pancho Villa's name was in all the papers all over the world. The "Army and Navy Journal" published in

Villa used a fictitious bank name on his third issue to lend respectability to the worthless paper money.

New York praised Villa's armies in the May 2, 1914 edition and even called him the "Mexican Napoleon." Gral. Huerta and his federal troops were alarmed as they knew that now Pancho Villa could buy arms, ammunitions and supplies in the United States.

Villa received a very important visitor from the United States, General John J. Pershing. He was with Lt. George S. Patton, hero of World War II.

After Ciudad Juárez, Pancho Villa headed south and captured the city of Chihuahua on December 8, 1914. There his generals agreed that Villa should be named governor of the state of Chihuahua. Thus Pancho Villa the general became Pancho Villa the statesman.

But Villa was a man of action and

could never understand the problems of government administration. When his collaborators informed him of the urgent need of money, he candidly replied: "If we need money, let us make it," and so they did. He signed the decree of December 10, 1914, two days after Chihuahua had been captured, ordering the printing of bills for 5, 10, 25, and 50 centavos as well as 1, 2, 5, 20, 50, and 100 pesos to the extent of two million pesos.

All of these bills have printed the name of "Gral. Francisco Villa." As they are very large in size approximately 100 by 200 millimeters (4" X 8") and were printed on white paper the people called them "Sábanas de Pancho Villa" (Pancho Villa's bed sheets). They are known in many varieties and some denominations are quiet rare.

Carranza distrusted Villa and named Manuel Chao governor of the State of Chihuahua. Pancho Villa, therefore, left the Governor's office; but kept full control of the printing press. By military decree of February 10, 1914, a new issue of paper money was put in circulation by the "Estado de Chihuahua" (State of Chihuahua). These new bills are of better manufacture and, with the exception of the 50 centavo note, they all have the effigies of President Madero and Governor A. González, two martyrs of the Mexican Revolution.

Soon the people called them, "Dos Caritas," (two little faces). They were issued for 50 centavos and 1, 5, 10, 20, and 50 pesos. These bills are about 80 by 180 millimeters. It has been estimated that Villa printed more than six hundred million pesos of these bills. By today's standards this would be more than six billion pesos. Many varieties can be expected in such a large quantity. No other individual has ever printed so much paper money guaranteed by nothing.

Two days after the above decree was issued, February 12, Carranza also signed a decree to start printing new bills hoping to control Pancho Villa's issues of paper money. Carranza failed to control Villa's flood of paper money as Villa was indomitable and could never be kept under control. He was a rebel at heart.

Some of you may wonder why Pancho Villa, a bandit and an outlaw, is now part of our Mexican Revolutionary Family. Pancho Villa's main contribution to the Mexican Revolution was his battle of Zacatecas, the bloodiest of our Revolution. There he defeated the Federal Army and forced Gral. Huerta to resign and leave the country. This paved the way for Carranza to enter Mexico City. But, alas, this was not the end. Hoping to settle differences among the various factions, a Convention was called for at the City of Aguascalientes. Carranza did not accept the decisions of the Convention and it split into three main parties: Villa in the north, Carranza in the center and Zapata in the

south. Thus Pancho Villa became a rebel again.

Pancho Villa remained a rebel until Carranza was assassinated on May 21, 1920. Don Adolfo de la Huerta became

temporary president. Villa then surrendered his forces and was given the "Hacienda Canutillo" near Parral, where he lived as an "Hacendado" (country gentleman) for some time.

The Parral Peso of 1913 was Pancho Villa's first large silver coin.

The army of the North peso was designed after the popular Cap and Rays eight reales of the 19th Century.

"Death to Huerta," Villa's famous Muera Huerta Peso is the only coin of the world that bears a death wish.

One day he was interviewed by the press and he made a loose remark that he "...could raise an army of 40,000 men in just a few days..." The statement became his death warrant; a political campaign for a new president was on the way and presidential candidates did not feel safe at such a remark.

Pancho Villa had lived by the slogan: dance, women and song. But NO WINE. He never touched liquor and detested drunkards; but he was a good polka dancer and loved his music and his girls. He had a friend in Parral whom he visited periodically. The morning of July 20, 1923, he was ambushed when he left her house and was driving in his

1918 open Dodge car. Investigators later found empty cartridges used by the killers. They were the same type of ammunition used by the Mexican Army.

Villa was buried at Parrel and some time later his grave broken into and his skull carried away. It has never been located. His mausoleum in Chihuahua's cemetery, now converted into a public park, is still awaiting his remains.

The old Dodge, full of bullet holes, can still be seen at his home, "Villa Luz," in the city of Chihuahua. His first legitimate wife, Doña Luz Corral de Villa, now 83, still lives in this house full of souvenirs and memories.

It is interesting to note that our coin convention organizers are thinking along the lines of the American Revolution Bicentennial celebration. A collector can never forget how important history is to our hobby and how important our hobby is to history. One of the coin conventions held in May was that of the Empire State (New York) Numismatic Association. The convention was held this year in historic Saratoga Springs near the site of the Battle of Saratoga which was the turning point of the Revolutionary War, where British General John Burgoyne was defeated by General Horatio Gates on October 7, 1777.

James Walser, ESNA president, and his committees are to be congratulated on the success of the convention, which included many outstanding displays and an active bourse. I was pleased to be asked to speak on the educational program on an important phase of numismatics.

The highlight of the convention occurred at the Saturday night banquet, when ANA member Fredric G. Mantei, Jr., of Long Island, N.Y., became ANA life member No. 1000. As president of the ANA, I had the honor of presenting the life membership certificate and the gold life membership card to Mr. Mantei. Governor Grover C. Criswell, ANA membership chairman, assisted in the ceremony. The membership committee — Governor Criswell, Governor George Hatie, and James Betton — have made special effort to increase the number of our ANA life members and 274 have been added since last August. In addition, there are 144 more in the process of becoming life members through the installment plan. Incidentally, the first ANA life member, in 1922, was the late Elliott Smith, also from New York State.

In May, I also visited our ANA headquarters in Colorado Springs and met with the entire headquarters staff, including our new executive director, Edward C. Rochette, and our new editor, Thom Marshall. Much important association business was transacted. If you have the opportunity, why not visit our headquarters? You will feel even more strongly that it is good to be involved with our hobby and our association.

The time for our ANA 81st Anniversary Convention will soon be here. Hotel reservations should be made directly with the Jung Hotel, 1500 Canal Street, New Orleans, La. 70140, as soon as possible. (Yes, there really is an outdoor swimming pool on the hotel roof!) It is recommended that you register as soon as possible for the convention activities. If you wish to pre-register for the convention, write to M.G. Frey, Registration Chairman, P.O. Box 2375, New Orleans, La. 70130. If you plan to exhibit at the convention, you should write immediately to Robert L. Hendershott, Exhibit Chairman, P.O. Box 929, Clearwater, Fla. 33517, for registration forms. Whether you are an exhibitor, dealer, general collector, or interested visitor, you can count on an exciting time in New Orleans.

DUTCH GUIANA (Surinam, Demerara & Essequibo, Berbice)

This colony was settled permanently by the Dutch by the Treaty of Breda in 1667 and declared a Dutch Colony in 1682. The East portion of Dutch Guiana, called Surinam, under the Dutch West Indies Company was divided into 3 parts; The Province of Amsterdam, The Priviledged Company of Surinam under the directorship of C. Van Aerssen and the Province of Berbice. From 1781 until 1816, this area changed hands three times between the British and Dutch. On Feb. 24, 1816, Wm. B. Van Panhuys took possession of Surinam proper under the name of William I. The treaty of London in 1814 granted the portion known as Essequibo & Demerara to the British. (The British had previously (1809) coined a currency for this area). Card money bearing a seal together with stamped values and signatures had been issued for Surinam by the edict of May, 19, 1761. (No known examples have been examined). Sugar had also been a declared medium of exchange by a resolution

of Sept. 11, 1669 at the rate of 2-stivers to the pound. This was later (1679) reduced to 1-stiver to the pound. Spanish & Portuguese gold and silver along with the familiar homeland (Netherlands) Dutch issues prevailed as the acceptable coins of use from 1700-1800. Minor coins were extremely scarce. Cut pieces of Spanish 8-reales and Netherland Rixdollars at proportionate values aided this shortage of change. On Jan 1, 1827, the mother country's currency system was introduced into Surinam. The first specific colonial Dutch coins appeared in 1679 and again in 1764 as copper doits. These were struck locally under the governorship of John Heinsius (1679). These were familiarly labeled "Little Parrots." Three values were struck, 4, 2 and 1 doits (stivers), in 1679 with some varieties. But a single value (1 stiver) was made in 1764.

COINS EMPLOYED IN CURACAO

Note: Aruba, Bonaire, St. Eustatius (1635), St. Martin (1648) and Saba under government of Curacao at Willemstad.

Curacao History: 1527-1634 occupied by Spain: 1634, Spaniards forced out of Curacao by Dutch West India Company. 1787, Dutch West India Company turned islands over to States General of Netherlands. 1796-1803 and 1807-1816, under British administration. 1816 returned to Dutch control.

Monetary System: Spanish peso (duro), 1634-1821 and including Spanish doubloons and Portugese johannes. Current values changed as per local edicts. All gold underweight was stamped with initials of island treasurer or appointed goldsmiths in order to pass current. It was often plugged to bring the coin to its proper weight. Small change secured by cutting and stamping the larger Spanish American minted eight reales and Brazilian (Portugese) pesos. (See chart in the history section for comparative exchange values). No exclusive stamp to identify gold coins to Curacao or Dutch colonies was adopted. A single gold piece is here listed and illustrated in the plate section to show the type of gold and its letter markings that did indeed circulate solely on its gold weight and fineness. It has not yet been positively established that any gold bearing simply initials was ever assigned to any one island in the West Indies.

Special Note: The prolifically produced French sou-marque (crowned C-copper) also freely circulated here in Curacao, as well as the French cayenne, 2-sous coppers, which, in fact, were debased so-called silver coins. Meanwhile, the Spanish gold pieces were rapidly replaced by the Portugese gold, "johannes," i.e. the half dobra or peca which passed at 7½ Spanish dollars or 18¾ guilders. Act, Mar. 3, 1801, placed Spanish 8-reales silver at 12 reales (Dutch) or 72 stivers. Scholten Ref. Nos.

COPPER COINS CIRCULATING ON CURACAO AND DUTCH W. INDIES

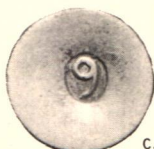

32. 1715-1810 Copper crowned "C" French black noirs or sou-marques as well as the French cayenne, 2-Sous pieces not bearing any counterstamps.

VARIOUS COUNTERSTAMP ISSUES CIRCULATING WITHOUT OFFICIAL SANCTION

From the latter part of the 18th century, various private marks were done by local merchants and entrepreneurs, and were applied to worn coins from many nations that had arrived locally and passed current due to the dire need of small change. In order to make these pieces quasi-official, a mark bearing a figure indicating the value at which it was to be used was placed on these non-entities and thus made acceptable without official sanction from the homeland or local authorities. The values placed on the coin by the counterstamping did, however, correspond approximately to the rates of exchange in stivers to which the Spanish dollar, French franc or U.S. Dollar had been previously agreed to by local officers. Since none of these actually came under any official decree or local edict, they are listed, simply, as coins of local use. The dates given are those of the known initial appearance of each value and not as official date of introduction.

i. Figure '3' in square indent c/m on Sp. peseta, passed at 3 Dutch reals or 18 stivers (overvalued). Doubtful, 1820-30.

j. Figures "2," "3," "4" on early Spanish 1-reales. Coins are always found in fine or better condition. These are most doubtful for Dutch possessions as the value could not be in stivers or reales for local use in relationship to intrinsic value of original coin used. The stampings are very pronounced and leave the coins with a cup-shaped appearance.

Notes on above un-official coins circulating here: U.S. Coins, by period of 1820 onwards were readily acceptable medium of exchange locally and passed current in all Dutch possessions in a great quantity of denominations. Example in author's collection shows letter "C" stamped on bust of U.S. half-dollar that came from Curacao. Most U.S. coins, however, passed without stampings. Another example would be a Seville minted Spanish 1-real that had been holed at Martinique with heart-shaped cut-out and also bears additional c/m of figure "2." These are both doubtful for Curacao but they illustrate that coins did pass from island to island and were then re-stamped for local usage. (Both are illustrated).

DUTCH COINS ON ST. MAARTEN (Leeward Island Grouping)

HISTORY: St. Maarten (Dutch spelling) was first settled by the Dutch in 1638 but a Spanish raid destroyed the colony shortly thereafter. In 1648, the Spanish left the island and it was subsequently divided between the Dutch (Southern portion) and the French in the North. The Dutch Flushing Merchants who were already established in the South had agreed to the division with the French and have remained constant to that treaty. The English occupied the island 1810-1814 but it was returned to the Dutch this latter year by the action of the Courts of Policy second session of 1816. In 1778, card money in the sum of 1,250 Dutch rix dollars of 48 stivers each were issued but recalled in 1779. The Dutch portion of the island is about one-third of the total area, leaving the French the upper, two-thirds. It was the Treaty of Munster or Westphalia that forced Spain to recognize the independence of the Netherlands and the existence and rights of the Dutch colonies in the West Indies.

MONETARY HISTORY: In the south (Dutch portion) the monies of official use were tied to the Dutch Guilder while the northern portion (French) the money of account was aligned to the French Franc. No British edict for cutting or counterstamping exists for this island. Following the period of official use of the Dutch edicted cut and counterstamped money (1797-1828) homeland Dutch coins were ordered for circulation.

ST. EUSTATIUS ISLE

HISTORY: Originally granted by the King of England to the Earl of Carlisle, July 2, 1627, this Dutch possession was taken over by the Netherland merchants who had settled there in 1635 following a muting of the settlers over suppressive taxes. It was attacked by the English (1655) and the French (1686) and captured for very short periods of time. The island was under British rule from 1810-1814 but was assigned by the Treaty of Breda (1667) and the Treaty of Ryswick (1697) to the Dutch. In 1781 the island was pillaged by the British under Adm. Rodney and almost de-populated. The French navy took possession in 1783 and held on to the administration of the island until 1801. The British again invaded and took possession until 1814 when the final commitment by agreement returned the island to the Dutch.

MONETARY HISTORY: Aligned to administrators' nationality as per the time of possession of each. No British rule for the use and issuance of counterstamped coinage. All such issues were by local edict of the councils (Dutch). The laws pertaining to the monies were identical to that of the Island of St. Maarten.

Imported from Curacao were the 1/5 cuts of Sp. Am. 8 reales. These passed at 3 reals (Dutch) here. THE DUTCH COLONY OF PERNAMBUCO

History: The 'Recif' of Pernambuco in Brazil was captured by the Dutch in 1630, under the leadership of Admiral Loncq. The area was placed under the protection of John Maurice of Nassau as governorship, whose term expired in 1644 following continual disputes in spite of the Treaty of Hague, June 12, 1641, completed between the Netherlands and Portugal. The Dutch settlers finally lost out to the original Portuguese colonists from lack of home support and held the Pernambuco only from 1644 until 1654. During the final year of their possession, while under siege from the Portuguese, The West India Company, then in command of the Dutch colony (Pernambuco) produced an emergency money for the settlers, which pieces were actually struck in the colony itself. All are extremely rare as few were left following the Dutch defeat. The gold issues, numbering 6 pieces were dated, 1645 and 1646. The silver issues (4) were dated 1654.

Monetary History: On orders dated, Oct. 10, 1645, the mintmaster, Pieter Janssen Bas, was instructed to prepare dies and strike quadruple, double and single ducats as emergency gold coins, which gold had come from Guinea in the West Indies possessions of the Dutch. The die cutter was Jan Bruynsveld and it is apparent that the minting encountered many difficulties, not the least of which, was the lack of any determining assay of the fineness of the gold and the loss of gold metal in the melting procedures employed. From records, dated Dec. 14, 1646, it was ascertained that some 119,569.18 florins worth of 12, 6, and 3 guilders (gold) were supplied. Values of silver issues represented by stivers, 40, 20, 12 and 10.

Note: Through the courtesy and research information supplied by Robert L. Schulman, son of Jacques Schulman of Amsterdam, the preceding information and photos were made available for this monograph. Mr. Schulman also advises that his research conclusively proves that the original mention of the XXX (30) stiver silver piece as listed by Meili (No. 8), Maillet (No. 5.), Van Cleef Coll. (No. 268) was, in fact the 40 stiver (Sch. 1452, above listing No. 54). False pieces of the group have appeared of the 40 and 10 stiver pieces which are lightweight. Mr Schulman's original comments are appended hereto:

"In 1654, the last year of the Dutch Administration, silver siege coins were minted. There are no official sources left dealing with this coinage. However these coins must have been struck between April and December 1654. They are divided into two groupes. The 12 Stuver (Scho. 1451, ill. above no. 7) belongs qua style and way of striking to the Gold series. As the other silver coins are based on the decimal-system the question arises whether these pieces were not intended to circulate for 12 **Guilden** instead of 12 Stuver. Especially since they were used to pay wages (whether overdue or not) it does not seem logical that a 12 Stuver piece would be used. Also the weight and the higher silver contents of these coins do not fit in with those of the second issue. Possibly this far too high a nominal value was the motive for the issue of the second series in poor silver. This 2nd issue consists of pieces of 40, 20 and 10 stuver (Scho. 1452, 1454, 1455; here ill. Nos. 8 to 10).

"A. 30 Stuiver pieces of 1654 is also (but I fear wrongly) mentioned (Scho. 1451). This piece (ill. No. 11) weighting 8.36 grams is in my opinion false, as well as those illustrated as Nos. 12 and 13, for the following reasons.

1) the XXX indicating the value is far too large in comparison with the crosses on the 40, 20 and 10 Stuivers

2) the two inner bars of the W are not joined together as they are on the other pieces.

3) The G. has a downward stroke instead of a horizontal one

4) The ciphers of the date are also incorrect.

"In looking up the literature on the subject I think I am right in maintaining that this 30 Stuiver has never been struck. Scholten for his book took the information from Maillet (No. 5 page 67). Maillet gives as his source of the catalogue of the Munnicks van Cleef Collection (no. 268) on checking no. 268 of this catalogue it appeared to be a 40 and **not** a 30 Stuiver. The mistake Maillet made is quite understandable if one looks closely at the 40 Stuiver piece, and not a XXXX.

"Finally in ill. Nos 12 and 13, two other false and later pieces: a 40 Stuiver wieghing 11.9 grams and a 10 Stuiver of 2.85 grams both of 1654. Comparing the coins just mentioned with the 30 Stuiver (Ill. no. 1) it immediately strikes one that all three pieces must have come from the same source."

THE TOKENS OF THE DUTCH COLONIES OF AMERICA

The issuance of merchants tokens, coal company tallies, etc. were as prevalent in the Dutch Colonies as in the other Dutch possessions in the West Indies. Most of these did have a value between the merchant or company and the user and thus can be considered a legitimate medium of exchange. In most cases they were a necessity to supplant the dearth of small change.

Note: Much argument exists as to actual attribution of the above two extremely rare tokens. Since no factual evidence is extant regarding the losse attribution to Canadian numismatics, they are uncertain but are listed here for Dutch West Indies and are Scholten No. 1411. Scholten was not aware of the larger size issue (T.2). Both are illustrated.

Both the "One Bitt (note spelling as Dutch) for Annandale, Essequibo, dated 1842, was undoubtedly used by the Dutch planters in Guiana as was the George Middlemass Bros. Brass token. The Annandale token was in lead.

CENTURY OLD NOTES

Never be induced to pay extravagant prices for worthless coins. There are some coins which command and are worth a large price. But these are, in fact, very few. Even the rarity of a coin is no test of its real value to a collector. It may increase the price of the article; but the young collector should bear in mind that the high price asked for a coin because it is rare, ought not to make him desirous of possessing it. The moment that the collector begins to value coins because of their rarity, he descends in the scale of Science; and when he seeks to possess rare coins merely because of their being rare, he becomes a speculator, envious and uncomfortable in the presence of others, and ceases to be a genuine Numismatist. Read as you collect. Never let a coin lie in your cabinet that you cannot give the history of, or connect with some historical event if it be possible. Be careful that your collecting does not become a mere matter of curiosity. Let it rather be a constant aid to your study. - Coins, Medals and Seals, W.C. Prime. - *American Journal of Numismatics*, 1872.

FEATURING FAKES

DO YOU HAVE THE ORIGINAL?

Now that the ANA Certification Service (ANACS) is a reality...after a premature start and abandonment some 80 years ago...a bit of space now should be given to at least a few of the many who made possible ANACS' June 15, '72 inauguration.

Chronologically, we'd start with Matt Rotherth who, as ANA prexy, became actively concerned over the fast growing production of counterfeits to cheat the collector.

Next we'd mention Glenn Smedley who, as editor of this magazine, allotted scarce space to a continuing exposé of fakes and altered coins.

Then the Organization of International Numismatists (OIN), a section of ANA, took the bull by the horns and initiated a drive for the necessary funds, with the Professional Numismatists Guild (PNG) and ANA promptly accepting OIN's invitation to join in the drive. Abe Kosoff was named PNG's trustee, John Pittman ANA's, and the American Numismatic Authentication Trust (ANAT) was on its way! The trustees paid all their own expenses, by the way.

Sylvia Haffner was the first individual contributor. Liberty Coin Club of Corpus Christi, Texas, was the first coin club to contribute, and that \$50 looked mighty big in those days!

Harry W. Bass, Jr., of Dallas, quickly gave ANAT a much-needed shot-in-the-arm with a substantial contribution.

All the national numismatic publications...*Coin World*, *Coinage*, *Coins*, Barbara

and Dick Hyde's newsy but now lamented *Numismatic Digest*, *Numismatic News Weekly*, *Scrapbook*, *World Coins*...and several regional periodicals gave freely of their space to boost ANAT.

John Pittman hounded for donations at coin shows, large and small.

Abe Kosoff personally twisted enough dealers' arms to raise nearly \$17,000.

John Hunter's second contribution at ANA-St. Louis was the one which put ANAT across the \$50,000 goal.

Herb Bergen, while ANA president, personally donated \$5,000 which he'd hung up as a carrot to spur the ANAT trustees to raise the other \$45,000. And, what was more important, Herb spent much of his time at his personal expense in Washington, D.C., getting to know the U.S. Treasury and Mint officials, acquainting them of the desperate need for ANACS, and obtaining their whole-hearted co-operation.

George Hatie and Eric Newman, following ANA's acceptance of the ANAT trust fund, joined in setting up a modus operandi for ANACS, and in making recommendations as to candidates for ANACS director. Charles Hoskins merits an orchid for taking the director's chore at a personal sacrifice.

Eve Adams, once Washington was selected as locale, worked unbelievably effectively as a one-woman task force, truly accomplishing miracles in speeding the day for the smooth launching of ANA's Certification Service.

And, first and last, a "thank you" to each of those 896 individuals and the 247 clubs chipping in "from a dollar up" to the ANAT trust fund which made it all possible!

Oh, about the counterfeits shown here today?

Yes, they're all counterfeits, three silver, one bronze, of 19th century An-nam, made in Southeast Asia since 1960. Don't buy 'em!

numismatic vignettes

• A new experience prompts an observation that, it seems to me, is pertinent to the relationship between all people - including numismatists and specifically between ANA officers and members of the Association.

During a stint on a Cook County (Ill.) Criminal Court jury, court officials stated and restated many times the precept that "the accused must be presumed to be innocent until proven otherwise, beyond reasonable doubt, to the jury." It is not enough that the prosecutor, various witnesses and even some of the jurors be firmly convinced that he is guilty of the charge preferred. Only the jury as a whole has the power to render a guilty verdict and thus to remove the accused from his "innocent" status.

In the ANA, as in society in general, there is a prevailing tendency for individuals to make accusations against their fellow homo sapiens and to pass their "judgements" freely to others. Usually the one being denounced has no chance to defend himself or present his side of the story, at least not to those who hear the accusations second or third hand. Such rumored charges against you or me can do real harm of a lasting nature.

This is only a vignette, not the whole picture, but think it over the next time

you are tempted to make an accusation against someone. A fair hearing is the right of every citizen of this country.

• Wm. McCune, an American clergyman of a century ago, rates only one quote in *The New Dictionary of Thoughts* but it is a gem: "If a man has any brains at all, let him hold on to his calling and, in the grand sweep of things, his turn will come at last."

• A brand new coin book came out recently with the words "Standard Catalog" as part of its title. There are several definitions of "standard" in the dictionary but the one applicable to a catalog is "commonly used and accepted as an authority." Isn't it more than a little presumptive of an author to infer that a newly published book is accepted as an authority?

Reminds me of Peter S. Prescott's comment in a book review: "Be thrifty with adjectives, which are, like coins, best tucked away lest they grow thin from constant use."

• At the recent CSNS convention banquet in Milwaukee I served as the M.C. The next morning a gentleman seated near me said, "You were quite good last evening - I laughed at a couple of your jokes." That, dear reader, is candor! — Glenn S.

Century Old Notes

KNOWS HIS DESTINATION. - A correspondent of the *American Journal of Numismatics* thinks that "all the York tokens have gone to the Devil, or some place equally distant," and concludes by saying that he "has no doubt but that some day he will drop down on a nest of 'em." Unless they were carefully packed for such a long journey, he may find them somewhat rubbed; and unless the climate of Satan's dominions has changed, he may find some of the coins burned or melted. Our friend Jenison has his coins in a place where nothing less than a Chicago or Holland fire could harm them, and perhaps not that. - *Lansing Republican*, Mich. - *American Journal of Numismatics*, 1872.

Calendar Medals and Store Cards

by

Melvin and George J. Fuld

Continued from last month

N.CL.3 - CLINTON, DEWITT

OBVERSE — DEWITT CLINTON with revolving center, a calendar.

REVERSE — Design of heraldic eagle LUCKY HALF DOLLAR.

SIZE — 48. METAL — Brass. Described in T.L. Elder Sale, April 14, 1930.

N.CL.4 — CLEVELAND TRUST COMPANY — 1901-1950

OBVERSE — Around, FIFTEEN OFFICES BRING THIS BANK TO ALL PEOPLE. In center in seven lines, THE / CLEVELAND / TRUST COMPANY / SAVINGS BANK / CAPITOL & SURPLUS / FIVE MILLION / DOLLARS.

REVERSE — Movable perpetual calendar for years 1901 to 1950.

SIZE — 28. METAL — Aluminum. EDGE — Reeded. In collection of J. Curto.

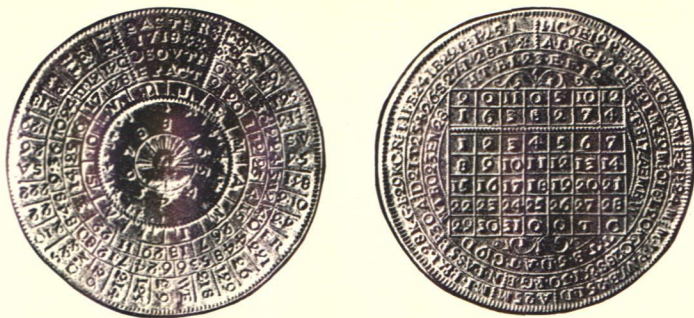

N.CO.4 — COLUMBIAN EXPOSITION — 1892

OBVERSE — At top COLUMBUS IN SIGHT OF THE NEW WORLD. In center the Santa Maria to left in full mast, two smaller ships to right all in body of water. Below, THE SANTA MARIA.

REVERSE — Same as reverse of N.CO.2. Movable calendar with days of the week around edges. In center is movable part with radial lines with days of month 1 through 31.

SIZE — 24. METAL — ALUMINUM. EDGE — Plain. This is no doubt the piece that Dr. Malcolm Storer listed as No. 201, "Medals of Columbus" in *The Numismatist*, 1925.

N.CO.5-21 — COLE, T. — 1718-1735

TYPE I

OBVERSE — In the center the sun surrounded by numbers 7654456788. At top **EASTER / (date) / SOUTH / EPACT**. In the remainder is a calendar arranged in concentric circles.

REVERSE — In the center are the days of the month in five rows and seven columns, beneath an Epact key of 14 numbers arranged in two rows. Around in three concentric circles, are important dates. Signed in lower right corner either **TC** or **THO COLE**.

SIZE — 26. METAL — Brass. EDGE — Plain.

N.CO.22 — COLE, T. — 1735

TYPE II

Identical to type I, but SIZE — 31. Presumably this is the beginning of a new yearly series of calendars, and it is assumed that the missing years will eventually be discovered. Probably this series takes up where the Buckley card left off (1716), and was continued either by Turner or Glover (1742) and then succeeded by the Powell series in 1748. Undoubtedly the piece listed as D1735.1 is the same as N.CO.22. Years known: 1718, 1725 and 1735.

N.CO.23 — COCHRAN, J. — 1797

OBVERSE — Above, 1797 / A CALENDAR / THE SUNDAY FIGURES. In the center, a calendar in six lines and seven columns. Around in three quadrants are the holiday dates. In the lower right hand corner of calendar, JAMES COCHRAN / NEW HAVEN.

REVERSE — The phases of the moon in center with the important holidays in the other four quadrants.

SIZE — 25. METAL — Lead. EDGE — Plain. This is an important piece, since it is undoubtedly the earliest known American calendar, being an exact copy of the contemporary English pieces. Presumably a very rare piece although three pieces, all with same date, have been seen.

N.CO.24 — CONSEIL DE ST. GEORGE — 1946

bique, as well as all the other territories under Portuguese domination, to self-determination and independence. In May of 1971, the Portuguese government invited the UN Committee of 24 to see first hand the conditions in Mozambique. During the last six months of 1970, according to claims made by the Portuguese government, 651 guerrillas were killed and 1,804 captured. The surrender of two guerrilla leaders was also announced at that time. However, in April and May, 1971, many European organizations announced substantial gifts to the Mozambique Liberation movement. Our Museum Collections

THE HATTONCHATEL FIND

In late June of 1922, Miss Belle Skinner and her brother William were helping to rebuild the village of Hattonchatel, near Verdun, France, where they dug up a clay pot containing 376 Medieval coins. The well-known French numismatist A. Dieudonné studied the find and cataloged it in an article in the *Revue Numismatique* in 1923. After the French government took their legal share of the find, the balance of the pieces became the property of Miss Skinner, who retained most of them until her death in 1928.

The collection was willed to Miss Skinner's niece and two nephews, Mrs. Elizabeth Kilborne Hudnut, Mr. Robert Stewart Kilborne, and Mr. William Skinner Kilborne, who recently donated it to our Association. The donation includes the entire collection of over 300 pieces, many in the old French envelopes, Miss Skinner's wooden cabinet that housed the choicest pieces, and the original 1923 article in which Mr. Dieudonné catalogued the collection.

The collection itself consists of over 300 coins from the original find, most of which are silver, with a few pieces of gold. About half are French, and the others are from Germany, the Netherlands, Luxembourg, Italy, Switzerland, and England. Included are several beautiful testons of Antoine of Lorrzine dated 1516 and 1517, and demi-testons dated 1524 and 1525. There are two pale gold florins of Jean de Horn, who was Bishop of Liège from 1484 to 1505, and a gold florin of David of Burgundy, issued at Utrecht about 1457. A number of the testons and cavalots from Italian states are in unusually choice condition.

Many of the silver pieces bear early dates. I especially enjoy the double sols of Philip the Fair that are clearly dated 1492, and another bears the date 1500. Two pieces of Philippe II of Cologne are dated 1509 and 1510, and a beautiful lustrous piece of Frieburg, Switzerland is clearly dated 1527. From Liège we have pieces dated 1478 and 1484.

The collection will be displayed in its entirety with the original cabinets and envelopes to show how a hoard or find can be cataloged and enjoyed. We are grateful to the donors for this beautiful group of Medieval pieces, and I hope that you will have a chance to visit us next fall when our display of the Hattonchatel find is completed.

CENTURY OLD NOTES

Chief Justice Chase wears a gold dollar attached as a charm to his watchguard. He says: "I put that on my watch-guard when I issued the first greenback, intending to keep it there till the greenback was as good as it was. I wore it for a long time, and things looked so bad that I began to despair of ever realizing my expectations. So I put it away - locked it up out of sight. After a while a change came for the better, and I took it out once more; but I begin to be afraid that I'll have to lock it up again." - *American Journal of Numismatics*, 1872.

Y'all Come To New Orleans

By James H. Cohen, General Chairman

81st Anniversary Convention, Aug. 15-19, 1972

As show time approaches closer and closer it suddenly occurred to me that our foreign friends (those conventioners not from the New Orleans area) may find it a little difficult to converse with the natives down here. Believe me, I once saw a true southern lady (complete with drawl) practically in tears when she tried to communicate with one of our British cousins over in Merry Ole England and literally had to get an interpreter to intercede in her behalf.

The following list and group of facts both real and imaginary will, I trust, add just a wee bit of extra zest to your visit.

BANQUETTE - a sidewalk

BAYOU - any small twisting stream in the lower part of the Louisiana Delta area.

BEIGNET - A square donut without the hole - eat only when hot and crisp or forget it.

CAFE AU LAIT - Chicory coffee and hot milk-ask for top cream if you like it rich.

CAFE BRULOT - A hot chicory coffee laced with brandy-orange peel or sticks and various spices such as cloves. Expensive, but good.

CAJAN - literally a true descendent of those French people that originally came to Louisiana as an early settler-as of today, however, anyone that wishes to claim that particular heritage may do so.

CREOLE - a mixture of the French and Spanish settlers with a dash of early American thrown in for good measure.
a form of cooking that is strictly southern Louisiana.

MARDI GRAS TIME - About a two-week period of time usually in February that consists of many parades highlighted by a very wild day always on a Tuesday when maskers roam the streets freely and revelry is the keynote.

VIEUX CAREE - An area about 130 blocks square that is bounded by The Mississippi River, Rampart Street (where the original fortifications were built) Esplanade Avenue (visualize Southern gentry prominading on this wide Avenue) and Canal Street (oddly enough named because there was a canal in the middle of the street).

QUARTEE - a 2½¢ token used in the old days by the local merchants so that they could sell a half of a nickles' worth of beans, rice or other products.

RED BEANS, RICE & SAUSAGE - a typical New Orleans dish usually served on Monday.

By the way, there is a small street in the French Quarter known as Pirates Alley. I do not doubt that Jean Lafayette strolled through this alley when traversing on his way from the Mississippi River to Lafayette's Blacksmith Shop which still stands on Bourbon Street. (It is now a pub catering to tourists.)

A'LABAS - A cajan greeting that means hello and/or goodbye as may be appropriate.

It is my sincere hope that each and every one of you can be the one to use the above information and that you will be packed and ready come show time for a run north - just north of the mouth of the Mississippi River that is.

A Monetary History of Japan

JAPANESE COINAGE by Norman Jacobs, Ph. D., and Cornelius C. Vermeule, III, Ph.D., 1972. 151 pp. illus. Hard cover. Stack's, 123 W. 57th Street, New York, N.Y. 10019. \$10.00

Serious students of Japanese numismatics have, in the past, been hard to find. And if one harbored an interest in beginning a collection, he could quickly have been discouraged by the lack of published information available on the subject.

The authors of *Japanese Coinage* have done much toward correcting that situation. The work provides information for those who are interested in Japanese coins from the standpoint of their historical relationships; there is a section of charts and tables for those who wish to describe their collections or check information on types and amount of issue and lists of equivalents, date charts and number system explanation should assist those who find the language barrier formidable.

One of the authors, Cornelius C. Vermeule III, wrote in the introduction that "students of Japanese coins can be divided roughly into three groups: those who acquired a taste for the coins through a contact with the country or the language; those who, in spite of a lack of association with Japanese civilization, have succeeded in developing this interest in the face of many difficulties; and lastly those who in their hoarding efforts have happened to include a few specimens from this section of the world."

This volume will aid the collector, regardless of the group he is in.

In preparing the work, the authors found help in Munro's *Coins of Japan*, and *The Old and New Coins of Japan*, a translation by S. Itami of T. Tsukamoto's *Nippon Kaheishi*. The

former was published in 1904 and deals with coins before the Meiji Restoration. The latter, which appeared in 1930, is a condensed English edition of the Osaka Mint's authorized history and is good as a source of illustrations. Many Japanese scholars also were consulted in the compilation of this, possibly the most complete and accurate book of lists and descriptions on the subject. — TM.

Four Pounds of Ration Information

U.S. RATION CURRENCY & TOKENS 1942-1945, edited by Joseph A. Lowande, 1971. 300-plus pages. Loose leaf. Published by the Society of Ration Token Collectors. Mrs. N.J. Keel, Route 1, Guymon, OK 73942. \$10.00.

Joseph A. Lowande worked almost two years on this catalogue which covers all (ration currency and token) forms known and presents information such as amount issued, distribution, survey on red and blue tokens, introduction to rationing, details on all currency, history of rationing, fuel oil, and similar material. Also included among the pages is a section on cotton and food stamp orders.

Each catalogue is numbered and the name and address of the purchaser is kept on file so that as additional information becomes available, new or corrected pages may be mailed to catalogue owners.

Much of the information collected in the catalogue came from the library and collection of Roy F. Gates who, following the conclusion of World War II, began to collect everything pertaining to U.S. rationing.

One interesting feature of the work is a page of actual samples of ration stamps and tokens. Selections include a red and a blue token, stamps from books 1, 2, 3, and 4 and several miscellaneous stamps.

The catalogue weighs four pounds and the loose leaf form requires at least a two inch binder. An even larger binder is advisable due to the expected supplements. — TM.

Exploration of Sardis

BYZANTINE COINS by George E. Bates, 1971. 174 pp. illus. Hard cover. Harvard University Press, Cambridge, Mass. \$15.00.

This is the first volume in a series of reports and monographs to be published concerning the results of excavations of ancient Sardis, metropolis of Asia Minor and capital of the Lydian kingdom. A Harvard-Cornell team of archaeologists excavated the site during the summers of 1958 through 1968.

George E. Bates describes 1,234 coins and one seal dating from A.D. 491 to 1282. He gives the emperor, mint, denomination, year, inscription and other details and the weight, diameter, die axis, and numismatic reference for each coin. Also included in the book are indexes of findspots, hoards, and unpublished coins, and a conspectus of mints. When and where each coin was found is described in footnotes.

Illustrations include maps of the area and 121 reproductions of the best preserved coins.

Mr. Bates James R. Williston Professor of Investment Management, Emeritus, Harvard University Graduate School of Business Administration, Fellow of the American Numismatic Society, and Honorary Curator of Byzantine Coins and Seals, Fogg Art Museum. — TM.

Results of Rigorous Research

COIN HOARDS OF GREAT BRITAIN AND IRELAND by I.D. Brown and Michael Dolley, 1971. 88 pp. Hard cover. Royal Numismatic Society and Spink and Son Limited Special Publication No. 6. Robert Stockwell, Ltd., 5-13 Baden Place, London, S.E. 1 England. \$9.60.

I.D. Brown compiled information on British coin hoards of the 16th and 17th centuries in his leisure time during a sabbatical year spent in Oxford. The section on Irish hoards was provided by Michael Dolley.

The authors define a coin hoard as two or more coins which can be presumed to have been deposited or lost at the same time.

Included in the listing are all bibliographical references, known to the authors, to coin hoards deposited in Great Britain and Ireland since 1500, and also to coin hoards from other countries deposited since that time which contain one or more coins of Great Britain or Ireland.

The work is not intended to be a complete hoard list, but will prove useful to students of numismatics. — TM.

Books Received

The inclusion of a book in this list does not preclude us from publishing a review at a later date. Far too many books are received monthly to review immediately and we do not wish to deprive our members of the knowledge of their availability.

THE CISTOPHORI OF AUGUSTUS by C.H.V. Sutherland, 1970. 170 pp. Illus. Hard cover. University Press Oxford, Ely House, 37 Dover Street, W. 1 London, England. \$11.40.

CENTURY OLD NOTES

At a meeting of the Liverpool Numismatic Society, held July 4, 1871, the Secretary, Mr. Charles Lionel Reis, read a paper of the Anglo-American coins, treating briefly upon the Rosa Americana and some of the other more interesting coins of the transatlantic colonies. He also took occasion to remind the Society of its being the Anniversary of American Independence, which fact induced him to take up the subject. - *American Journal of Numismatics*, 1872.

New ANA Slide Sets Available Soon

The ANA Education Committee is preparing four new sets of slides to be added to the visual education library in July. It expects to issue, at about the same time, a complete list of the sets available to member clubs.

Bob Berman

One set covers the national bank notes issued from 1863 to 1923, showing the face and back sides of the types of the three charter periods in denominations from \$1 to \$100. These are among the most interesting notes issued by the United States, bearing engravings of famous persons and historical scenes. The commentary notes supplied with this set point out some little known facts about the national bank notes.

Another set covers the colorful and also popular large size silver certificates, all of which were authorized by two Acts of Congress, February 28, 1878 and August 4, 1886. There were five different issues which included denominations from \$1 to \$1,000. Neither Friedberg's or Donlon's catalog prices any of the \$500 or \$1000 denominations yet this slide set pictures one of the \$500s, bearing the bust of U.S. Senator Charles Sumner.

The Association is grateful to Aubrey Bebee for this contribution to its slide library. Although perhaps better known as the owner of a 1913 Liberty Head Nickel, he has one of the most complete collections of U. S. paper money extant. He modestly thanks another outstanding collector, Amon Carter of Fort Worth, for loaning one of the \$50 nationals to be photographed for that set.

The other two sets being prepared will be much in demand by collectors and students of foreign coins. They consist of 120 slides of important crown-size coins of nearly as many world

countries - divided into two sets of countries from Afghanistan to Italy and from Jaipur to Zanzibar.

The master transparencies for these sets were furnished by Los Angeles collector Bob Berman whose crown collection, dispersed at auction about eight years ago, consisted of the subject coins. Bob has held high offices in a number of numismatic organizations, has contributed articles and information to several publications and was a "vest-pocket dealer" for a time. More recently his collecting instinct has turned mostly to numismatic books for his personal library and to strengthening his claim to the designation "a numismatic scholar."

Many excellent specimens of scarce and rare coins are seen in these two sets of slides. The commentary notes bring out interesting information about the coins, of which generally only the most pertinent side is shown, and historical facts about the issuing country. Most of the coins are of the nineteenth or twentieth century although a few are of earlier periods. The sets include the so-called "world's 10 most wanted crowns."

Berman collected his crowns meticulously and the Association is fortunate in receiving and being able to pass on to collectors this pictorial record of his fine collection.

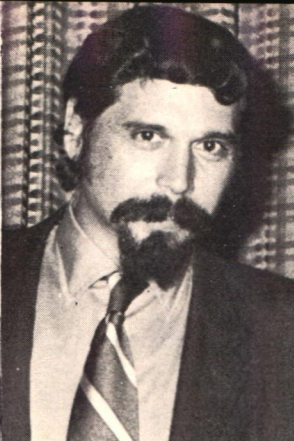

Although an exact date of availability of these four sets cannot be promised as this is written, member clubs may make their requests for future use. They would be wise to give two dates after July in case there is any unexpected delay in having some of the sets ready for mailing. For these or any other sets, write to ANA Slide Sets, P. O. Box 2366, Colorado Springs, Colo. 80901. Be sure to give dates of desired showing and complete mailing address (type or print), including postal zip code number. - Glenn Smedley, Chm.

Century Old Notes

In 1551, Edward VI., crowns and half crowns were first coined. The crown bears on the obverse a figure of the king on horseback, the horse capering; Legend, EDWARD: VI: D:G: AGL: FRA: Z: HIBE': REX: Y. The king is in armor and the horse covered with rich housings. Mint mark Y, for Sir John Yorke, master of the mint at Southwark. Reverse, The Royal arms and cross *fleurys*; legend, POSVI: DEVM: ADIVTORE': MEV: Y. The half crowns are of the same type except that the titles are abbreviated; some bear the mint mark of a Ton, for Throgmorton, master of the mint at the Tower. Many collectors commence an English series with the crowns of this reign and date. Crowns bring from four to eight dollars, the half crowns from three to six dollars according to their condition. — *American Journal of Numismatics*, 1872.

LATE WORLD COIN NEWS

CAYMAN ISLANDS

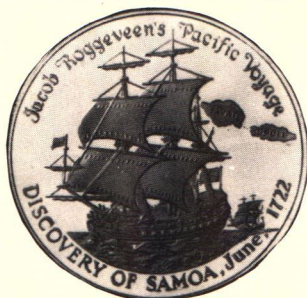

Coins Created for Crown Colony

The Cayman Islands — Grand Cayman, Little Cayman and Cayman Brac — located south of Cuba in the Caribbean Sea, released the first four coins of its own new coinage on May 1. The day was designated "Coin Day" throughout the islands. V.G. Johnson, financial secretary of the Cayman Islands, says that there will be additional coins introduced later in the year, including several large silver coins. A numismatic program designed for collectors is also planned and details will be announced in late summer or early fall. Pictured here is the 1972 Cayman Islands 25 cent coin produced at the Royal Mint in London along with the 1, 5, and 10 cent coins released May 1.

WESTERN SAMOA

Islands Commemorate Discovery

To recall the 250th anniversary of the discovery of the Samoan Islands by the Dutch explorer, Jacob

Roggeveen, Western Samoa will release a \$1 cupro-nickel coin on June 14, 1972. The crown-size 38 mm. commemorative is being struck at the Royal Australian Mint in Canberra. The obverse, designed by James Berry, O.B.E., of Wellington, New Zealand, shows the two vessels commanded by Roggeveen in Samoan waters. The reverse shows the coat of arms of Western Samoa with the value and dated 1972. Prices are \$8 for proof and \$2.25 for uncirculated. The coins may be ordered from Numismatic Section, The Treasury, Apia, Western Samoa. Requests for more than one proof must be ordered on a basis of 10 uncirculated to one proof.

ENGLAND

Mint Directors Meet Next in France

An invitation from the French Mint to hold the next International Mint Directors' Conference, in either May or June 1974, in France with formal sessions in Paris followed by a visit to the new French Mint at Pessac, near Bordeaux, which will be operating by that time, was unanimously accepted. The invitation was extended at the Seventh International Mint Directors' Confer-

ence which ended April 26 in London.

Pierre Dehaye, director of the mint of France, was elected chairman of the conference for the next two years. He succeeds Arne Bakken, director of the Royal Norwegian Mint, who has held the post for the past four years.

Harold Glover, deputy master and comptroller of the Royal Mint, London, was elected vice-chairman, and Robert Vogeeler, director of the Belgian Mint, was re-elected to the post of secretary of the conference for another two year

term.

The conference was attended by delegates from 12 of the present 14 member countries, which are Austria, Belgium, Finland, France, Federal Republic of Germany, Great Britain, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and Turkey. In addition, official observers attended the conference from Australia, Canada, Denmark, Japan, Poland, the United States of America, the USSR and Yugoslavia.

10th edition "Brown Book"

Puts it all together

Over the years, *A Catalog of Modern World Coins* has become the standard reference on world coinage by type. In the 10th edition, it again proves its contemporary nature with a repricing of just about every coin in the book necessitated by changing collector trends and market conditions. Complete revisions include Danzig, Russian Turkestan, The Sudan, Tunisia — and a new listing — Russian Caucasia. The catalog covers all world coins from approximately 1850 to 1960. All together, Whitman's Brown Book is the "best buy" yet on the international money scene. **\$5.00 No. 9053.**

Items not available through your local dealer may be ordered from Dept. M, Western Publishing Company, Inc., Racine, Wisconsin 53404. Include \$1.00 for handling.

WE ARE PAYING "GEM" PRICES FOR GEM BU COINS

We have great confidence in the present coin market and we are showing this confidence by paying Top Dollar for Top Quality coins.

We do not need whizzed or processed coins which only appear to be BU (i.e. Barber Halves advertised at \$79.50, Bust Halves at \$32.50, etc.), but which in reality are no better than XF or possibly AU.

The first time that we ran this ad we received some of the worst "garbage" as BU that you can imagine. Please don't waste our time and yours unless your coins are **Choice BU**.

By the way, to command these prices, the early copper must be Brilliant, and not brown, Unc.

COINS FOR INVESTMENT

**NOT
OLD!**

**NOT
SILVER!**

**NOT
GOLD!**

Believe It or Not!

We are recommending:

The modern clad issue of U.S. Coins.

**Now 15 coins in each dime and quarter clad series.
Very few clad coins were held back from circulation.
Some of the BU clad coins will prove to be surprisingly scarce.
Each series now includes 4 scarce Proof only issues.**

There is only one way to obtain the very scarce "S" clad dimes and quarters and that is to break up the Proof sets. Proof sets minted each year: 1968-S only 3,041,509; 1969-S only 2,934,631; 1970-S only 2,632,810; 1971-S approx. 3,000,000.

It is estimated at this time that less than 10% of the proof sets have been broken to obtain single coins for collectors. This 10% figure would be less than 300,000 of each date available for collectors and investors.

For a comparison of mintages and value, listed are some recognized by key coins in the 10¢, 25¢, 50¢ series:

Date	Mintage	G-VG	BU
1916-D 10¢	264,000	\$100.00	\$675.00 per coin
1932-D 25¢	436,800	35.00	225.00 per coin
1932-S 25¢	408,300	35.00	95.00 per coin
1921 50¢	246,000	30.00	750.00 per coin
1921-D 50¢	208,300	50.00	975.00 per coin
1938-D 50¢	491,600	22.00	175.00 per coin

Mystic Medallion of The Zodiac

Coin and medallion designs have utilized a wide variety of themes and subjects over the years. In spite of the subject or the design itself, it is always the goal of the medallic sculptor to create a work of art, a lasting contribution to the one art form, which — above all others — is most familiar to more people than any other field of art.

One of the most unusual examples to be introduced on the numismatic scene is the Zodiac Lucky Number Medallion, recently announced by Van Brook of Lexington. The medal is certain to stir the imagination of anyone who sees it, and should be popular and well received by collectors, whether they are Zodiac devotees or not.

The obverse of the medal depicts the 12 signs of the Zodiac in their classical styles. Each symbol is rendered in extraordinarily fine detail, and one must have a good high-power magnifying glass to truly appreciate the intricate precision of the die engraving.

A modernistic four-point star divides the Zodiac into quadrants, each represented by its own "Access Code Symbol."

The reverse features the "Magic Squares" of Ancient Egypt, as translated by archeologists from

stone carvings (2000 - 4000 B.C.). The "Access Code Symbols" are repeated on the reverse and around the perimeter are a series of astrological symbols representing the planets and their relative positions with one another.

There are many intriguing phenomena concerning the magic squares. Every row — horizontal, vertical, or diagonal — when added, totals 65. The sum of the four corner squares is the same as the sum of the four Access Squares.

An unusual but fairly simple formulae has been devised for the calculation of any individual's "daily lucky number" utilizing the Zodiac, the access codes, and the magic squares. A parchment folder explaining the procedure is supplied by the company along with each Zodiac Medallion.

Specimens are available at \$3 each for an antique golden bronze medallion, and \$5 each in antique nickel silver. Sterling silver Mint Proofs are priced at \$12 and a complete set is \$19. All prices include postage.

Further information may be obtained and medals can be ordered by writing to: Van Brook of Lexington, Inc., North Branch 5044, Lexington, Kentucky 40505. ANA 71484

Features One Of The World's Most Famous Crowns

The highlight of virtually any proof set is its crown or silver dollar sized coin. And the 1972 Panama Proof Set boasts one of the most desired and sought after crowns in the world today, the silver one Balboa. Featuring the bust of the Spanish explorer, Vasco Nunez de Balboa, discover of Panama and the Pacific Ocean, this crown has often been praised for its bold and majestic beauty. Although first issued in 1931, until 1966 it was minted in only four different years. But when Panama began its proof set program in 1966, the Balboa was included in the set and has been a fixture there ever since.

Because of the great world-wide demand for this coin, Panama first made it available *singly* in 1970 at \$7.50 per coin. And fortunately for crown collectors, the 1972 Balboa is also available at the same price. To insure the fairest and most equitable distribution of this much desired coin, the single Balboa is *only* available to purchasers of the complete proof set. In addition, a maximum of two Balboas may be ordered for each proof set purchased.

Outstanding Investment Potential

The entire series of Panama proof sets

has been a very popular one with collectors and investors. The result is that *every* set has substantially increased in value since the time of issue. For example the 1966 set is currently selling for three times its 15 dollar issue price, while the 1970 set is already bringing \$35.00! And judging from the interest *already* shown, the 1972 Panama set promises to be one of the year's *best* proof set investments.

Quality Minting And Silver

Made at the United States Mint in San Francisco, Panama's proof sets offer the collector the highest quality minting available anywhere. And in an age when precious metals have all but disappeared from most countries' coins, it is refreshing to know that Panama still has two silver coins in its proof set.

The Deadline Is Near

The number of 1972 Panama Proof Sets to be minted will exactly equal the number of orders received before July 31, 1972. We don't want you to miss this opportunity to obtain one of the world's most desirable proof sets, and so we urge you to send in your order today. Any order postmarked after July 31, must be returned to the sender.

DEADLINE: JULY 31, 1972

ORDER FORM

NUM

Acceptance of orders is contingent upon the Mint's ability to meet the demand. Should the number of orders exceed the ability of the mint to produce these coins within the required production deadline, it may be necessary to effect a reduction or cancellation of some orders received. In the event of such reduction or cancellation, a full refund will be made on any undelivered sets.

CLAZOMENAE

387-301 BC

TETRADRACHM

Only 60 Tetradrachms of Clazomenae exist. Over 35 of them are in museums. This leaves less than 25 available to collectors. Most of the 25 are in private European collections; only 2 known to us are held in American collections. These represent a rare opportunity to own one of the most famous of all Greek coins.

"He built to last. The FBI will remain a living memorial to him."

A Giant, a Legend, an American Institution!

J. EDGAR HOOVER

the greatest G-Man of them all!

A most fitting tribute

To most Americans John Edgar Hoover was, as Pres. Nixon so aptly put it, "the symbol and embodiment of the values he cherished most: courage, patriotism, dedication to his country and a granite-like honesty and integrity."

56 years of his life were devoted to service of the United States, under eight presidents. 48 of those years Hoover spent building the FBI into a world-renowned law enforcement institution that will stand as a living memorial. He built to last.

The enduring qualities of beautiful medallion art make it an especially appropriate tribute to the great FBI chief—REMEMBER — MEDALS ARE FOREVER!

Sculptor Menconi presented Freedoms Foundation Award

Ralph J. Menconi, sculptor of many medal series for Presidential Art, has again distinguished himself as a sculptor and a scholar with the winning of the coveted FREEDOMS AWARD for the creation of medals of historic significance.

The fine hand of Menconi is apparent in the strong features, sculptured, in bold relief that so vividly portray the courage, fierce patriotism of law-loving Mr. Hoover. Forty-eight stars encircling the Obverse represent "J. Edgar's" 48 years as FBI chief. Hoover's signature is reproduced from a personal letter to Menconi in 1970. Design of the Reverse incorporates meaningful elements of the FBI seal: Scales for Justice. Laurel for Integrity. Figure of Justice represents Liberty, purpose and aims of the FBI.

The Hoover medal will be a proud possession for historians, law-loving Americans, and a must for any serious collector.

"Cameos in Silver" by *prestige creations*

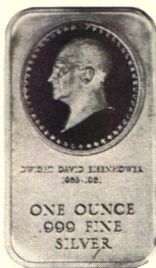

George
Washington

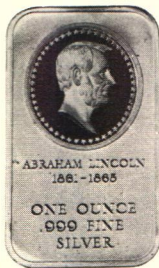

Thomas
Jefferson

Franklin D.
Roosevelt

Dwight D.
Eisenhower

Abraham Lincoln

John F. Kennedy

It has often been said that "one picture is worth a thousand words." In the case of the remarkably beautiful silver ingots pictured above, a thousand pictures could not possibly capture the artistry and brilliance of these pieces. A new dimension has been added to medallion art by the creation of these ingots.

The frosted portraits of the Presidents are struck in high relief framed in an oval pool of brilliant proof, surrounded by a frosted field, a striking combination of finishes. These uniquely different silver cameos are truly a quality addition for any collection, struck in .999 fine silver, weighing one troy ounce.

At the above prices, uncirculated and proof coins must be strictly GEM, uncleaned, fully brilliant specimens. E.F. coins must be STRICTLY E.F. We are also interested in all other grades from Fair to hairlined proof, as long as the coin has a retail value of \$10 or more. We are very strong buyers of all rare types and dates not listed. (for example: we will pay \$500 for a Gem B.U. 1839 No Drapery half dollar — a coin which catalogs \$375.!)

Please ship only correctly graded coins. WE PAY ABSOLUTE TOP DOLLAR FOR EVERYTHING, but only as long as the coins are accurately graded. We do NOT pay Gem B.U. prices for sliders, cleaned coins, etc. We do NOT pay E.F. prices for V.F. coins. We do NOT pay Gem Proof Prices for spotted, hairlined or otherwise impaired or dulled proofs. That is not to say we won't buy these — it is just that we will not pay as much for these as for GEMS.

We will buy single coins, or your entire collection. Simply ship your coins to us. We'll send you our TOP DOLLAR offer in the form of an insured check, which you may accept or decline. (Nearly everyone accepts—our offers are serious and generous). If we can't come to terms, your coins will be returned at our expense. Why settle for less money for your coins, when you can ship them to us and receive the MAXIMUM amount for your coins, and get payment within a few days!

POLITICAL AMERICANA

Jackson, Harrison, Clay, Fremont, Lincoln and Douglas! All had campaign medals and tokens struck for them. They are the real "classics" of political collecting. Prices are still surprisingly low in contrast to some of the modern celluloid buttons. An 1840 Gen. W.H. Harrison, Whig party campaign token can be purchased for as little as \$5.00 and I offer ten different varieties for \$60.00. Choose from the largest stock in the country. My latest illustrated 10 page catalog (.50c - refundable with first purchase) lists hundreds of early 19th century political campaign medals and tokens along with many later celluloid pins. I have reprinted the 1888 classic "Presidential Campaign Medals" by Gustave Kobbe - a fascinating essay on collecting these pieces, with 50 woodcut illustrations only \$1.00 per copy. 25 different pres. election buttons (originals) \$5.00. 100 mixed 1972 election buttons \$20.00.

**PRESUMABLY UNIQUE GOLD PRESENTATION MEDAL OF
LOUISIANA INTEREST**

This large, heavy gold medal was presented in 1845 to Bernard de Marigny, the prominent New Orleans and Louisiana political and social figure, by the Naturalized Citizens of Louisiana, on the occasion of the Convention of the State of Louisiana, on the occasion of the Convention of the State of Louisiana, and De Marigny's 60th birthday.

51mm, 130.07 gms, in possibly original case; signed S.SCHMIDT FEC. N. ORLEANS on both obverse and reverse.

Bernard de Marigny (Oct. 25, 1785 - Feb. 3, 1868). Louisiana plantation owner, legislator, and social leader. Born in New Orleans, the son of Pierre Enguerrand Philippe de Mandeville, Ecuyer Sieur de Marigny, Chevalier de St. Louis; great-grandson of Francois Philippe de Marigny, who assisted Bienville in founding New Orleans. Scion of the richest family in the Colony of Louisiana, Bernard de Marigny was present as an aide at the historic ceremonies of 1803 when Louisiana was retroceded to France by Spain, and later transferred to the United States. Elected to the territorial legislature in 1810, and served in the upper or lower house of the state legislature continuously until 1838. An important figure in the defense of New Orleans against the British in 1815. Member of the first Convention of the State of Louisiana in 1812, which drafted its constitution, and of the second (1845) Convention, which modified it. Introduced into this country the dice game which subsequently became known as "craps."

Solomon Schmidt (c. 1806 - ?). General and banknote engraver, originally from Baden, settled in New Orleans about 1840. Later became local agent for the American Banknote Company; active at least until 1870.
